

## **SPRING 2023 –**

Well another season is upon us. With practices beginning, I would like to take this time to assign field usage at the Skagit River Park Fields to allow each team at least 1 day each week on the maintained fields. These assignments are for practices to be scheduled from now until games start in April. You are welcome to practice at any district facility (schools, parks, etc.) but these are on a first-come-first-served basis. Please keep in mind that we are responsible for maintaining these fields.

### **So rake the infields after practice.**

If the league closes the fields, that means that “ALL” fields in the district are closed. You may still practice in the open grass areas but don’t be so close that your players might “accidently” go onto the infields.

Thanks for giving your time this season and let’s have a great year.
